### **HealthEquity Offers Free Investments to HSA Clients**

Salt Lake City, Utah – November 30, 2006 – HealthEquity<sup>®</sup>, Inc., an innovator in providing health savings and reimbursement accounts and services to help employees manage the financial side of health care, announced that it has launched a free investment product for its Health Savings Account (HSA) holders. The free product will allow clients to invest some of their HSA dollars with no trading or set-up fees and no minimum investment.

“We are very excited to bring this unique investment product to our clients,” states Steve Neeleman, CEO of HealthEquity. “We have decided to offer this product free of charge, with no minimum investment, because we believe in giving our clients every opportunity to grow their HSA dollars.”

HealthEquity has chosen the following funds for their clients after extensive research based on past performance and expected future performance: American Funds American Balanced F (BALFX), American Funds Bond Fund of America F (BFAFX), American Funds Growth Fund of America F (GFAFX), American Funds Washington Mutual F (WSHFX), Dreyfus Appreciation (DGAGX), Dreyfus Small Cap Stock Index (DISSX), Fidelity Blue Chip Value (FBCVX), Baron Small Cap (BSCFX), Harding Loevner Emerging Marketing (HLEMX), and Laudus International MarketMasters Fund Inv (SWOIX). The company will continue to add more funds over time, giving even more options to their clients.

HealthEquity provides industry-leading health care financial services for more than 1,800 employers, health plans, TPAs, and financial institutions throughout the country.

HealthEquity’s integrated service offering allows consumers to combine their health plan claims and plan information with personal banking solutions.

In addition to investment options, HealthEquity offers a full-suite of health care financial service tools that help clients become more engaged consumers, finding quality care at the best prices. HealthEquity’s financial service platform includes an FDIC insured

depository account, an HSA debit card, online bill payment, optional credit, 24/7 customer service, including a nurse hotline, self-diagnosis tools, an online medical encyclopedia, a treatment cost estimator, Rx generics and pricing information, and a hospital quality and cost comparison tool.

**About HealthEquity<sup>®</sup>, Inc.**

HealthEquity is a consumer-focused health care services company that enables health insurers, benefits administrators, employers, and financial institutions to provide employees and consumers with a personal savings and payment account integrated into their health plan's claims platform. Additionally, HealthEquity provides 24/7 personal advisory services to help consumers better save and spend their health care dollars.
